MTE INDUSTRIES

WHO WE ARE

At **MTE Industries**, we specialize in the sale of specialized units for emergency, rescue, civil protection, and public service operations.
We work with clients who require functional, durable vehicles capable of meeting the demands of their operations.

Our approach

- **Identify:** Understand the actual needs of each operation.
- **Select:** Find the right unit for each application.
- **Prepare:** Deliver a solution tailored to the specific job for which it was acquired.
- **Respond:** Support the customer throughout the sales process.

OUR VALUE PROPOSITION

MORE THAN A VEHICLE, A RESPONSE TOOL.

Emergency units require specific characteristics that go beyond appearance; therefore, our commercial approach takes into account:

OPERATION

Units designed for demanding tasks and continuous operation.

SPECIALIZATION

Vehicles for various emergency, rescue, and public service needs.

AVAILABILITY

Unit options subject to inventory and availability.

ADVISORY SERVICES

Guidance on identifying the unit that meets the customer's needs.

SPECIALIZED

Configurations tailored to specific needs.

MTE INDUSTRIES

FIRE TRUCKS

RESPONSE. CAPACITY. PREPAREDNESS.

Our portfolio includes various types of vehicles for fire departments, civil protection agencies, municipalities, and private organizations.

“When every second counts, responsiveness matters.”

FIRE ENGINES

Structural firefighting units.

PUMPERS

Vehicles equipped for pumping and attack operations.

TANKERS

Units intended for water transport and supply.

RESCUE FIRE TRUCKS

Configurations for combined fire and rescue operations.

WILDLAND

Vehicles designed for forest fire operations.

UNITS CONFIGURED FOR THE SPECIFIC REQUIREMENTS OF FIRE DEPARTMENTS AND CIVIL PROTECTION AGENCIES.

MTE INDUSTRIES

FIRE TANKERS

2,000 GALLONS OF RESPONSE CAPACITY.

Units designed to transport and supply water for operations where a reliable water supply is critical.

The 2,000-gallon fire tankers offer a solution for fire departments, civil protection agencies, and operations requiring additional water supply capacity.

WATER SUPPLY

Supply for firefighting operations.

RURAL RESPONSE

Support in areas with limited hydraulic infrastructure.

EMERGENCY OPERATIONS

Water availability during critical situations.

CIVIL DEFENSE

Support for various emergency scenarios.

FIRE DEPARTMENTS

A supplement to expand the fleet's operational capacity.

WHO DO WE SERVE?

SOLUTIONS FOR VARIOUS OPERATIONS

MUNICIPAL GOVERNMENTS

Units to strengthen public service, civil protection, and emergency response capabilities.

FIRE DEPARTMENTS

Specialized vehicles for fire response and rescue.

CIVIL DEFENSE

Units dedicated to emergency prevention, response, and care.

PRIVATE COMPANIES

Solutions for industrial facilities, plants, sites, and high-risk operations.

CONTRACTORS AND OPERATORS

Specialized vehicles for specific projects and operations.

EMERGENCY ORGANIZATIONS

Units to expand or renew existing fleets.

MTE INDUSTRIES

THIS IS HOW WE WORK.

From Requirement to Unity

1

We understand your needs.

We define the application, unit type, and main requirements.

2

We identify options.

We search our inventory and availability for the corresponding alternatives.

3

Introducing the Unit

We share specifications, photographs, technical information, and commercial terms.

4

WE EVALUATE

The client can analyze the unit according to their operational needs.

5

We are closing the deal.

We are coordinating the next steps to finalize the acquisition.

6

DELIVERY

We coordinate the delivery or transport of the unit in accordance with the terms of the transaction.

MTE INDUSTRIES

READY WHEN IT MATTERS.

FIND THE UNIT YOUR OPERATION NEEDS.
